

Science, innovation and technology showcased

The CSIR participated in South Africa's International Science Innovation and Technology Exhibition (INSITE) hosted at the Sandton Convention Centre at the end of September 2006 2006. The theme of the exhibition was science, technology and innovation as key drivers of economic growth and development, and for enhancing quality of life. Projects displayed by the CSIR included:

- [Towards a sustainable infrastructure](#)
- [Cutting a competitive edge for South Africa's industries](#)
- [Mapping South Africa's spatial economy](#)
- [The quest for renewable energy](#)
- [Computer technology and simulation aid textiles and clothing](#)
- [Global growth through advanced manufacturing](#)
- [Treating TB with nano-drug delivery system](#)
- [World-class sensor technology for inspection of power lines](#)
- [Aerodynamics facilities offer unique testing opportunities](#)
- [Protecting our waters - towards a maritime area surveillance system](#)
- [Predicting and managing air quality](#)
- [Affordable microbicides to control HIV infection](#)
- [Linking indigenous knowledge and scientific innovation for public good](#)
- [Recycling water for human consumption and industrial use](#)
- [Aardwolf BR40: yielding positive results for the mining industry](#)
- [Growing better trees with higher pulp yield, faster](#)
- [Satellite imagery put to work for South African decision-makers](#)
- [Digital Doorway opens doors of learning](#)
- [CSIR and Eskom aim at detecting troublesome wildfires](#)
- [Precision in ionising radiation in the interest of health](#)
- [Towards precise measurements - calibrating breathalysers](#)
